Offices and City Warehouse { Nos. 475 and 477 N. Fifth Street
Nos. 476 and 478 York Avenue

PHILADELPHIA

Seed Gardens at FORDHOOK FARMS, Doylestown, Pa.

About Warranted Seeds.

There has been considerable discussion in the trade papers the last few years about warranted seeds, and several seedsmen have criticised the warranty which we have given always,—only to the amount actually paid for the seed. With other reputable seedsmen, who insist upon the usual “disclaimer,” we agree *in so far* that it would be little short of quackery to warrant any seeds to always produce good crops. Success is sometimes beyond human control. Under adverse conditions even the best seeds may fail.

We maintain, however, that a Seedsman should know thoroughly the seeds he sells, and after using every possible safeguard, in case of failure from any fault of the seed, should refund the price paid. Further responsibility than this it is impossible to assume. Such a guaranty, however, shows confidence on the part of the Seedsman that he is sending out only first-class seeds, and insures the careful co-operation of his employes.

It is necessary, of course, that samples be tested of every lot of seeds, not only for vitality (for even “weed seeds grow”), but also for genuineness and quality of strain. Our complete system of trials at FORDHOOK FARMS, as outlined on page 4, is the most extensive in America, while with our constant watchfulness in the filling of orders at the city warehouse the chance of mistakes is reduced to the minimum. Should any mistake occur, however, as would be shown by comparison of samples of the same lot tested in our Trial Grounds, we are prompt to refund the price paid. While this does not compensate for any contingent loss, yet it proves that we have more than usual confidence in the thorough care constantly exercised by us in growing and selling

The Best and Only the Best Seeds that Grow.

Discounts TO THE TRADE From our Retail Prices.

In our retail Catalogue—BURPEE'S FARM ANNUAL FOR 1899—are many varieties of seed for which frequently other Seedsmen receive retail orders. With the exception of our exclusive Novelties for 1899, which are not offered to the trade, also the advance set of Eckford's New Sweet Peas for 1899, described on page 105 of BURPEE'S FARM ANNUAL FOR 1899, and upon which we can allow a discount of only 33 $\frac{1}{3}$ per cent., we will supply

All Seeds in Packets at 50 Per Cent. Discount.
500 Packets or More at 60 Per Cent. Discount.

On small quantities from our retail Catalogue, which cannot be invoiced at the low pound or bushel prices quoted herein, we would state that such orders are charged at the following rates of discount from our retail prices:

Seeds by the Ounce,	40	per cent. discount.
Seeds by the Quart or Pint,	33$\frac{1}{3}$	“ “
Seeds in Collections,	40	“ “
Potatoes by the Pound,	40	“ “
Bulbs in Collections,	20	“ “
Roses and other Plants,	20	“ “
Books on Garden Topics,	40	“ “

At the above liberal rates of discount the goods travel at expense of purchaser, and on seeds, etc., sent by mail, the cost of postage will be added to the invoice.

W. ATLEE BURPEE & CO., PHILADELPHIA, PA.

Cable Address, BURPEE, Philadelphia.

THE NEW BURPEE BUILDING,

Philadelphia, January 19, 1899.

To the Trade:

In considering our prices, please bear in mind that we do not handle a second grade of seed, grown cheaply for the whole-sale or jobbing trade. In many cases we could buy seed on the open market to sell profitably at prices considerably below the actual cost of production to us. This we will not do.

Our retail mail trade—the largest in the world—has been built up by the constant care taken in growing and testing our seeds. Neither with the seeds grown on our own farms nor by our contract growers will we consent to cheapen the cost of production to a point where it is impossible to produce “THE BEST SEEDS THAT GROW.”

Quality before price is ever our motto. Therefore, this whole-sale list will not appeal to dealers who make lowest cost the first consideration. Therefore, again, **we employ no travelers**, nor do we issue any so-called “cut-prices to jobbers.” All orders from the trade (and this list is never mailed to Market Gardeners) will be invoiced at prices given herein without any further discount than the usual five per cent. for cash, unless on special lots prices have been given by letter and are quoted in the order.

We are glad at any time, wherever possible, to make special **quotations by letter**, but it must be understood that such offers are for immediate acceptance and do not hold for future orders.

It is gratifying to announce that last year—notwithstanding the position we took in withdrawing all travelers from the road and in having uniform prices to all, as printed herein—we did the largest wholesale business in the history of our house. This shows conclusively that there is room for a legitimate wholesale trade on quality, without any attempt to meet the “cut-throat” methods that have so nearly demoralized the American trade in Seeds.

CITY WAREHOUSE:

475 and 477 North Fifth St.,
476 and 478 York Avenue.

SEED GARDENS and Trial Grounds at FORDHOOK FARMS, Bucks County, Penna.

Best Seeds that Grow for 1899, Thoroughly Tested at Fordhook Farms.

THIS PACKAGE (IF UNBROKEN) CONTAINS ONE OUNCE OF

Here follows the same "electrotyped" label as printed on our packet bags,—giving in full the name of the variety and, in case of the more important Vegetables and Flowers, also an illustration, description, and directions for Culture. Every package bears our full firm name, while varieties introduced by us (as enumerated on pages 6 and 7 of THE FARM ANNUAL FOR 1899) are marked also with our registered trade-mark monogram.

Every ounce-package is **dated** as above.

Packets, although not dated (because the electrotypes generally require the entire front of the bag), are all filled with the same choice quality of the **Best Seeds that Grow for 1899.**

Seeds of the best quality cost very much more to produce than do seeds of the ordinary commercial grade. And yet many merchants, having little or no knowledge of the value of **High-class Seeds**, purchase their supplies wherever they can be obtained the cheapest. It was brought to our notice that some merchants would buy a bill of seeds from us, obtain copies of our catalogues and show-cards, and then purchase a portion of their supplies from other seedsmen, who, growing "*cheap seeds*," could sell at much lower prices. In many cases planters who purchased from their local merchants, thinking that they were obtaining **BURPEE'S SEEDS**, got only a few of our seeds (perhaps in packets), and often the seeds bought by weight or measure were of inferior quality, falsely sold on our reputation, but for which we were not in any way responsible.

This deception was brought so prominently to our attention a year ago that we debated seriously whether we should not decline altogether to sell **BURPEE'S SEEDS** at wholesale. Further consideration, however, showed us that this would hardly be fair to the honorable merchants who had been handling our seeds exclusively for years. Therefore we announced last year, that

Hereafter we will sell Burpee's
Seeds ONLY in sealed packages.

Packets and ounces, in the *Spangler Water-tight Bags*, are sealed, and bear, plainly printed, either **our Name or Registered Trade-mark Monogram**, protected by United States Letters Patent. Quarter-pounds, pounds, pints, and quarts, in paper bags or cartons, have pasted across the top a **green label**, worded as follows:

BURPEE'S SEEDS THAT GROW
For 1899.

Genuine Only if this Seal is Unbroken.

SEEDS IN BULK,—that is, Peas, Beans, etc., by the peck or bushel, and quantities of small seeds in bags, will have **each sack sealed with our Trade Mark on a leaden seal.** This plan will be a protection to honest merchants from competition with other seeds falsely claimed to be **BURPEE'S SEEDS**, and at the same time will be a guarantee to the purchaser.

LARGE DEALERS WHO SELL ON THEIR OWN REPUTATION CAN BUY IN BULK FROM US, AS HERETOFORE.

While every sack is sealed, the contents can be handled as desired,—except that they must not be sold as **BURPEE'S SEEDS unless in original packages.**

TERMS OF SALE.

PHILADELPHIA, January 19, 1899.

All bills purchased after this date will be charged at the prices quoted herein,— unless *special offers* are made by mail and *referred to* in the order. Not less than ten pounds of one variety will be invoiced at the rates per hundred pounds.

Sealed Packages.—We make no charge for sealing **pounds, pecks, or bushels**, but, at the low bulk prices quoted herein, we charge for putting up in smaller sealed packages, as follows :

In Ounces.—One cent per ounce.

In Quarter-Pounds, Pints, and Quarts.—Two cents for each package.

In Two-Quarts and Four-Quarts.—A charge of three cents per package.

Terms of Credit.—To regular customers and well-known houses of established credit, all bills bought from this Catalogue are due June 1st, without regard to date of purchase. *All accounts are subject to sight draft on June 10th if payment is not received previously by mail.* Goods purchased after June 1st are payable on October 1st and subject to sight draft.

☞ Bills purchased *on special quotations*, made by letter, are due three months from date, or subject to a discount of one and a half per cent. for cash within ten days of date of invoice.

☞ **Grass and Clover Seeds, Onion Sets, and Seed Potatoes** in quantity are invariably **net Cash**.

☞ Unknown correspondents desiring credit are requested to give satisfactory reference in Philadelphia or New York.

Terms for Cash.—We will allow a discount of **Five per Cent.** on orders accompanied by a cash remittance, and also on all bills (at Catalogue prices) paid within ten days from date of invoice.

Shipping Instructions should be sent with each order, and will be followed carefully. Otherwise we will use our best judgment as to route.

The Prices Quoted are those ruling at this date. We expect to adhere to them through the spring, except in cases where important changes in the market compel us to advance or reduce our prices, when we will be governed by the market. **10 lbs. and over will be supplied at the rates per 100 lbs.;** $\frac{1}{2}$ lb and $\frac{1}{4}$ bush. at the pound and bushel rates ; *but smaller quantities will be subject to a higher charge.*

Seeds by Mail.—When desired, small packages will be forwarded by mail at 8 cts. per pound, 15 cts. per quart, extra.

NO CHARGE for Boxes, Barrels, Packing, or Cartage. Bags are *Charged at Cost.* After delivering to forwarders in **good order** (as shown by Bill of Lading) our responsibility ceases. **Insurance** effected only when so directed.

WE DO NOT COMMISSION SEEDS.—In response to hundreds of inquiries each year, we would state that we **positively decline to send out any Seeds on Commission.** Dealers handling seeds in packets will be supplied on liberal terms, and by ordering judiciously, those left over can be destroyed, and the business yet be more profitable and satisfactory than the handling of commission seeds.

A Few Facts about Fordhook,

"A Household Word Among Seed Buyers."

The great development of the seed industry in America is nowhere better exemplified than on the large seed farm of W. Atlee Burpee & Co., at FORDHOOK,—located among the Bucks County hills in Pennsylvania,—a name now as familiar among seed growers and buyers as a household word. Too much credit cannot be given to MR. W. ATLEE BURPEE, the head of the great Philadelphia firm, for the energy he has displayed and the capital he has expended in order to make the experiments carried on at this perfect model farm of the utmost value, not only to himself, but to the whole nation.—From THE FLORISTS' EXCHANGE, *New York, more than four years ago.*

To the original FORDHOOK FARM, so long famous as the most complete trial grounds in America, we have added, from time to time, several small tracts by purchase. Last winter, learning that the very desirable farm immediately adjoining FORDHOOK was for sale, we gladly purchased it, in order to have more land not only for our trial grounds but also for the growing of seed crops, which experience had shown could be produced to the best advantage in this section of Bucks County. Instead of giving a new name to our new farm we have merely written the plural,—FORDHOOK FARMS,—and can promise our customers that our best endeavors shall be constantly put forth to maintain and extend the fair fame of FORDHOOK.

Both farms are devoted exclusively to the raising of the choicest vegetable and flower seeds, the extensive trial grounds, poultry yards, and kennels of Scotch Collie dogs. The only farm crops are grain and hay, to afford a proper rotation. While large areas are devoted to the raising of choice strains of vegetable seeds (of which thirty-five acres were in Tomatoes the past season), the chief distinction of the farm, aside from the famous trial grounds, is the growing of flowers for seed. From June to September the fields of flowers stand out like immense Turkish rugs among the surrounding green fields.

The rich, glowing color presented by an acre planted solidly in Scarlet Sage or gorgeous Poppies can hardly be described, while the soft blending of colors in the fields of different strains of Asters, Falsams, Gladioli, Marigolds, Mignonette, Nasturtiums, Petunias, and Phlox Drummondii, is both brilliant and harmonious. The carpet-like effect of these showy annuals is broken by long rows of stately Hollyhocks, Perennial Phlox, Sunflowers, and other tall plants, as well as by the green hedges and avenues of trees, leading to different portions of the farms. The *trials* of Sweet Peas alone occupy more than an acre.

We have the largest trade in Flower Seeds, and grow annually a greater quantity and variety on our own land than do any other seedsmen in America. The quality is far superior to the imported seed generally sold in this country. Our large greenhouses and sheltered beds of wide extent are devoted to the raising of the finer seeds, such as Begonias, Gloxinias, Cyclamen, Cockscomb, Coles, Heliotrope, Pansy, and Torenia.

Near the greenhouses is situated the seed house,—the building of many windows. In the cellars of this building seed potatoes are stored, while on the well-aired floors above the various crops of seeds are dried and cleaned, ready for shipment to the city warehouse. Nearby, also, is the office building, where the farm work is planned and the books are kept, including complete records of the vast number of trials conducted annually.

You buy our seeds absolutely on our "say-so." To make that "say-so" so, that when we say "SOW" it refers to thoroughly trustworthy seeds, we must know far more than untested seeds can tell us. To gain this information we have

The Most Extensive Trial Grounds in America.

All seeds, after having been tested for their germinating qualities and found satisfactory (every reputable seedsman does this much), are sowed in rows ten to forty feet in length in ground properly prepared for them. By the term "properly prepared" we mean treated precisely as any intelligent grower would work his soil having a good crop in view.

We do not employ any means or methods beyond the reach of any planter with a view to stimulating an unusual or excessive development. The plain truth is what we are seeking, consequently we do not "tamper with the witnesses."

We must know precisely what our seeds will do for you, with your methods of cultivation, as on what they will do for you, *your way*, our reputation hinges.

At the end of each row a stake painted white and bearing a number is planted—for instance, say No. 5735—and this number at once becomes a member of a vast and interesting family. No. 5735 is entered in a specially prepared register—where it came from, when it came, when it was sowed, when it came up, etc., etc.—and from the time it has a visible existence above ground its appearance and characteristics are constantly and carefully noted. This register gives an impartial history of its behavior, at all stages, from germ to maturity, and makes the record on which it must stand or fall.

Of course, this will be recognized as a mere outline of the Fordhook system of seed testing. It is intended simply to emphasize the fact that we countenance but one road to an available knowledge of seeds,—a knowing that enables us to confidently recommend our offerings,—viz., a close, personal, every-day acquaintance with them throughout their entire career.

To those who desire fuller details of our Seed Trial System we will mail, upon receipt of two two-cent stamps, the book entitled "A YEAR'S WORK AT FORDHOOK FARM," which treats of this subject at length and is illustrated from photographs.

An Invitation to visit FORDHOOK FARMS is open always to our customers. Wednesday is visitors' day, but customers from a distance can obtain permits for any other weekday by calling at our Philadelphia office. An omnibus meets every train upon arrival at Doylestown, while trolley cars run every eighteen minutes, connecting at Willow Grove with the city trolley lines.

A NOVEL OFFER FOR 1899.

It must be difficult for the casual reader of a dozen or more catalogues, often with conflicting claims, to decide where to place his order. Realizing that experience is the best teacher, we originated years ago the system of popular twenty-five-cent collections, to enable every one, at nominal cost, to give our seeds a fair trial. Many thousands have thus become regular customers,—but “this is a big country,” and there are other thousands who do not yet know the uniform excellence of BURPEE'S SEEDS.

Therefore, that many more may see the pronounced superiority of the products grown from our seeds, we have decided to offer—

Special Premiums at every State and County Fair,

aggregating in all

Thousands of Dollars in Cash Prizes.

We hereby authorize the secretaries of every State Fair in the United States, and also of every Provincial Fair in the Dominion of Canada, to offer a **first prize of twenty dollars** and **second of ten dollars** for the best collection of Vegetables, and another special prize of \$10.00 for the best display of Flowers grown from BURPEE'S SEEDS. We authorize, also, the secretary of every county fair in the United States to offer, in like manner, a cash prize of \$5.00 for the best display of either Vegetables or Flowers, as may be preferred.

The Regular Cash Prizes to be duplicated by us.

In addition we will *duplicate* the amount of money in regular first prizes as offered annually by every State Fair Association in the United States for the best specimens in each separate class of String Beans, Shelled Beans, Lima Beans, Garden Beets, Mangels, Cabbage, Garden Carrots, Cattle Carrots, Cauliflower, Celery, Celeriac, Sweet Corn, Pop Corn, Field Corn, Cucumbers, Egg Plant, Kale, Kohl-Rabi, Leek, Cabbage Lettuce, Cos Lettuce, Musk Melons, Watermelons, Oats, Okra, American Onions, Italian Onions, Parsley, Parsnip, Peas, Peppers, Pumpkins, Early Radishes, Summer Radishes, Winter Radishes, Salsify, Spinach, Summer Squash, Winter Squash, Tomatoes, Turnips, Ruta Bagas, Asters, Balsams, Begonias, Gloxinias, Nasturtiums, Pansies, Sweet Peas, Ten Weeks' Stocks, and Verbenas,—provided the prize-winning specimens are raised from seeds bought of us. It is not necessary for *this offer* to be announced in the premium list of the fair. The only requirement is that the successful competitor shall attach to each prize-winning exhibit a card, on which is plainly written or printed, “GROWN FROM BURPEE'S SEEDS.” Then immediately after the fair, as soon as informed of the amount of society prizes won, upon looking up the original order (which we can do instantly by our complete register books), to see that the seeds were bought from us as claimed, we will send our *check for an equal amount*. This offer is entirely independent and does not conflict with our other offer of **Cash PRIZES for Collections**, as explained above.

Send for
**Special
Circular.**

In order that our customers and all agricultural societies may thoroughly understand these prize offers and the great **MUTUAL BENEFIT** that will accrue therefrom, we have prepared **A SPECIAL CIRCULAR**, giving full particulars and *fac-similes* of exhibitors' cards, etc., which will be supplied free upon request. 📄 Merchants are requested to call the attention of their customers to these **LIBERAL Prizes for 1899.** 📄

We trust that many of our customers will decide to compete and make their State or County Fairs more interesting than ever before. Each prize-winner will not only *get paid liberally* by this system of *duplicating* the cash prizes at every State Fair, but will have also the satisfaction of knowing that he has helped to introduce to the visitors—“**THE BEST SEEDS THAT GROW.**”

“BUYING BY MAIL” is profitable alike to the private planter, market gardener, and dealer. With our Silent Salesman of a comprehensive catalogue you can use your own unbiased judgment as to your requirements, and can be sure that you will get promptly just what you order at the same prices as your competitor must pay for the same quality of seeds.

“MAIL ORDER HOUSES ARE HONEST.”

The truth is, some of the greatest business successes in the United States are exclusively catalogue houses. I know from careful investigation that the goods listed in their catalogues are honestly described. I also know that the way they do business is entirely satisfactory to their thousands of patrons.

Catalogue houses have distinct advantages over houses that send out traveling salesmen. A catalogue house can sell small lots as cheaply as the other houses sell big lots. If a moderate-salaried salesman could sell two or three “big bills” in every town, and keep this up right through the year, his ratio of selling expense would possibly be as low as that of a catalogue house. But he cannot do it.

Last month I visited all of the Southern States. While in the South I talked to dozens of merchants who are regular patrons of catalogue houses. I never heard of any one of them being humbugged. They seemed to be

delighted with this quick way of doing business. They said the cash terms of the catalogue houses were liberal, and that they got better bargains than they could from the road drummers. They are pleased because the catalogue houses do not “substitute.” They send along just what is ordered.

I do not know of a catalogue house that does not guarantee every article it sells to be exactly as represented. Every one of them is always ready to rectify an error. There is no business rule that forces any merchant to keep goods that are not precisely as asked for in his order.

The constant growth of the catalogue houses speaks loudly in favor of their honesty, and that fakes and swindles are not permitted. A business to succeed through the mails must above all be truthful. The catalogue houses all know this.—SAM E. WHITMIRE in *FAME*, *New York*, September, 1898.

WE PROTECT THE DEALER IN SEEDS.

Our Wholesale Catalogue, or “Red List,” is sent only to legitimate dealers, and is never mailed broadcast to addresses of general merchants taken from Bradstreet’s, nor is it ever sent to market gardeners. Our prices are uniformly low, quality considered, and are the same for the same quantity to the dealer in the far West or South as to neighboring seedsmen in Philadelphia or New York. This is only fair. We have but —

ONE PRICE TO ALL—ALWAYS THE LOWEST.

ONE QUALITY FOR ALL—ALWAYS THE BEST.

Telegraphic Cipher (or Cable Code)

FOR WEIGHTS AND MEASURES.

The telegraphic cipher word for quantities must always precede the cipher words for seed, but if the same quantity of several varieties is ordered, the cipher word meaning that quantity need not be repeated before each variety, but may be placed only before the first. For example :

Arad Jacket Jetty, Aragon Primrose Beauty, Malmo Balcony, would mean, ship at once, cheapest route, ten pounds each **BLANCHE BURPEE** and **METEOR SWEET PEAS**, three hundred packets each **PRIMROSE** and **BURPEE'S BEAUTY CUPID SWEET PEAS**, and ten bushels **BURPEE'S STRINGLESS GREEN-POD BEANS**.

Our customers will find this a very inexpensive way of wiring their orders, but we must caution them that care be taken in writing out the messages, as we cannot hold ourselves responsible for errors arising from incomplete messages or incorrect translation.

IMPORTANT.—This telegraphic cipher must be used **ONLY** on orders by telegraph or cable, and never in written orders sent by mail.

Burpee's Vegetable Seeds.

TEN POUNDS OR MORE WILL BE CHARGED AT 100-POUND RATES.

 **A Telegraphic Cipher** (or **Cable Code**) is attached to each variety, by which our customers can wire us their orders at very little expense, using also the code for weights and measures as on preceding page. For example:

Freight Luzon Bib would mean: Send immediately, by fast freight, five bushels of BURPEE'S BUSH LIMA BEANS.

Express Arden Calliope would mean: Send immediately, by express, twelve pounds of BURPEE'S ALLHEAD EARLY CABBAGE.

Mail Alem Perturb would mean: Send by mail, postpaid, to-day, one pound BURPEE'S RUBY KING PEPPER. If the word **Register** is used instead of *mail*, it would mean "Send by Registered Mail."

 Please note carefully **NEW CABLE CODE**.

Telegrams should be addressed,

W. ATLEE BURPEE & CO., Philadelphia.

Our **CABLE ADDRESS** is: **BURPEE, Philadelphia.**

Besides making thorough trials both spring and fall at our FORDHOOK FARMS we personally inspect our growing crops in California each spring before they start to seed. Of our selected strains, the plants head so firmly that the heads of many varieties require to be cut open before the seed-stalks can shoot out. Practically all the lettuce seed sold in America is raised in California, but, unfortunately, the demand for "cheap" seed has compelled the majority of growers to produce seed from plants grown so closely together that they have no opportunity to form well-developed heads; nor can these crops be properly "rogued." Our lettuce seed costs twice as much to produce as does the cheap seed commonly sold.

Our Seed Peas are of the very best quality obtainable, being all grown far North (on the borders of Lake Ontario), riddled and carefully **hand-picked**. They are raised from the best selected stocks, and the crops are carefully "*rogued*," being subjected to the most critical and constant inspection.

SWEET PEAS.

Largest Stock and Only Complete Collection in the World.

The trials of Sweet Peas at our famous FORDHOOK FARMS the past season numbered four hundred and eighty-two samples, and were, as usual, the most extensive in the world. Each year we inspect personally our contract crops, both on the Atlantic and Pacific coasts. Notwithstanding the general shortages of the seed crops, by having had increased areas in cultivation, we have now in our Philadelphia warehouse (including, of course, thousands of pounds that have been shipped to Europe before this is printed)—

More Than Sixty Thousand Pounds of the Seed.

Therefore we are able to maintain our undisputed position as "HEADQUARTERS FOR SWEET PEAS," and to offer for 1899 the best seed, of all varieties, at moderate prices.

OUNCES of Sweet Peas are **one-tenth** pound prices, **except** that no variety will be supplied at less than **four cents per ounce**. Varieties priced at 35 cts. or less per pound are charged at **ten cents per ¼ pound**. Varieties priced at 45 and 50 cts. per pound are charged at 15 cts. per ½ pound, while those priced at 75 cts. per pound are charged at 20 cts. per ¼ pound.

BURPEE'S AURORA.

Received Award of Merit, Royal Horticultural Society, London, 1898.

ECKFORD'S BLANCHE BURPEE.

Eight Elegant Sweet Peas for 30 Cts.

Burpee's "GORGEOUS" COLLECTION. This Collection, done up in a large envelope, with directions for culture, contains one full-size packet each of—

Our new "GORGEOUS," an improved "Flaming Meteor,"—most gorgeous in coloring yet produced,—BURPEE'S PINK CUPID, as easily grown as any tall Sweet Pea,—AURORA, the largest-flowered striped,—BLANCHE BURPEE, Eckford's famous giant white,—BURPEE'S NEW COUNTESS, the light blue, painted on cover of THE FARM ANNUAL,—LOTTIE HUTCHINS, "the most charming novelty of 1898,"—SENSATION, often four to a stem, and STELLA MORSE, the best of all the creamy-yellow or primrose Sweet Peas. All of these Eight Elegant Sweet Peas, excepting only Eckford's "Blanche Burpee," were first named and introduced by us. Purchased separately, even at our low prices for 1899, these would cost seventy cents, but all eight are mailed for THIRTY CENTS.

Wholesale, 20 cts. per Collection; \$17.50 per 100 Collections.

Seven Superb Sweet Peas for 25 Cts. As shown on Colored Plate in FARM ANNUAL.
Wholesale, 15 cts. per Collection; \$13.50 per 100 Collections.

Dollar Collection of The Best New Sweet Peas

Burpee's Dollar Box for 1899

contains the SEVEN SUPERB SWEET PEAS, mentioned above, except that we send *one ounce* instead of a packet of BURPEE'S BEST MIXED, and also one full-size packet each of the following famous new varieties: AURORA,—BURPEE'S EARLIEST OF ALL,—BURPEE'S NEW COUNTESS,—ECKFORD'S BLANCHE BURPEE,—COLONIST,—DUKE OF SUTHERLAND,—LADY MARY CURRIE,—LOTTIE HUTCHINS,—LOVELY,—SENSATION,—STELLA MORSE,—TRIUMPH.—WAWONA.—BURPEE'S PINK CUPID, and of the following NEW Novelties for 1899: GORGEOUS.—FASHION.—PINK FRIAR, and a full-size packet of the wonderful new BURPEE'S BUSH SWEET PEA, the first of an entirely distinct race.

In all, Twenty-five Varieties of the Best Up-to-Date NEW SWEET PEAS.

Wholesale, 80 cts. each; \$9.00 per dozen Boxes.

Our Dollar Box No. 2 contains one ounce each of THE NEW AMERICAN SEEDLINGS and ECKFORD'S UP-TO-DATE MIXTURE, one full-size packet (price 25 cts.) of tall "NAVY BLUE," and new ALICE ECKFORD CUPID, described on page 44, and one regular packet each of BURPEE'S BRILLIANT,—CAPTIVATION,—CHANCELLOR,—COUNTESS OF POWIS,—CREOLE,—CROWN JEWEL.—DOLLY VARDEN,—DUCHESS OF SUTHERLAND,—EMILY ECKFORD,—EMILY LYNCH,—GOLDEN GLEAM,—GRAY FRIAR,—JUANITA.—MAID OF HONOR.—MARS.—PRIMA DONNA.—PRINCE EDWARD OF YORK,—QUEEN VICTORIA.—RAMONA.—ROYAL ROSE,—SHAZZADA, and VENUS,—all of which will be found described in the COMPLETE LIST, pages 39 to 42.

Our Dollar Box No. 2 contains, as enumerated above (including the two ounces of new mixtures), twenty-six varieties that very nearly equal in value the twenty-five "Newest and Best" of Burpee's Dollar Box for 1899, advertised above.

Wholesale, 80 cts. each; \$9.00 per dozen Boxes.

Three New Colors for 1899 of The Distinct Dwarf CUPID Sweet Peas.

 For illustrated descriptions, see THE FARM ANNUAL FOR 1899.

CUPIDS are grown easily from seed and thrive vigorously wherever the tall Sweet Peas grow. This has been proved abundantly by the advance reports prior to the introduction of **Burpee's PINK Cupid** and by the letters received last summer expressing entire satisfaction on the part of retail purchasers.  We admit freely that we were unfortunate in introducing the **WHITE CUPID** as the first of this new race, for, like all white-seeded Sweet Peas, this was at first more difficult of germination and, in some sections, less vigorous of growth. Seedsmen generally will recall, however, that there was similar difficulty in getting seed to germinate and grow satisfactorily of both *Emily Henderson* and *Blanche Burpee* when these two tall, white-seeded whites were first introduced.

Burpee's PINK Cupid has redeemed already the reputation of this valuable new race and demonstrated what we have claimed,—that **CUPIDS** are as easily grown as the tall *Sweet Peas*.

OUR THREE NEW CUPIDS FOR 1899, on account of the seed being so scarce, have not been distributed generally for advance trials (as was the *Pink Cupid*); but two of these—**BURPEE'S BEAUTY** and **ALICE ECKFORD**—being *black-seeded* will grow equally as vigorously everywhere, while at **FORDHOOK FARMS** the past summer we had splendid stands in our trial grounds of the **PRIMROSE CUPID**,—fully as vigorous in growth as the tall *Primrose*, and the plants remaining in bloom considerably longer.

New Dwarf Sweet Pea,—Burpee's "BEAUTY CUPID."

BURPEE'S BEAUTY CUPID, while being always of the true Cupid type—growing only six to seven inches high with deep emerald-green foliage—bears flowers fully equal in size, form, and substance to the best of the new tall Sweet Peas. The handsome large flowers are borne most profusely all over the plant in clusters of three at the top of strong stems. Of unusual breadth, rather pointed at the top, and edges recurved, giving it the deeply hooded effect of *Her Majesty*. The keel is heavily curved, holding the wings well up under the standard; wings quite broad and well expanded. The standard is a delicate and yet *decided rose color*, lightening to nearly white at the edges, and slightly striped with carmine at the base. The wings are suffused rosy carmine, deepening at the edges.

New Dwarf Sweet Pea,—PRIMROSE CUPID.

Like all the other Cupids, this is very free flowering, and the dwarf plants, only six to seven inches high, have that distinct *emerald-green* foliage which is peculiar to this new race. This is identical with the original white **CUPID** in all respects except coloring. The flowers are of a rich *creamy tint*, identical with that of the tall *Primrose*. The standard is rather short, but stiffly erect, very broad, and well expanded; wings wide and well expanded.

New Dwarf Sweet Pea,—ALICE ECKFORD CUPID.

The blooms are borne in close clusters of three on stiff stems, displaying most attractively the charming, blended coloring. The standards are a rich, creamy white, suffused or blended with a delicate shading of soft flesh-pink; the wings are silvery white with a faint pink flush in the central portion. The coloring of the entire flower becomes rather deeper, instead of fading, when well opened. The flower is identical, in size, form, and color, with that of the tall *Alice Eckford*, which, while not of the largest size, has been admired so greatly on account of the delicate and harmonious shadings of softly blended tints.

We offer all of these at uniform prices as follows: In regular-size packets (each containing twenty-four seeds):

Per pkt. 25 cts.; 5 pkts. for \$1.00; per dozen pkts. \$2.00;

Per 100 pkts. \$12.50.

A lower rate will be quoted by the thousand packets.

In half-size packets (each containing twelve seeds):

Per pkt. 15 cts.; 2 pkts. for 25 cts.; or 10 pkts. for \$1.00;

Per 100 pkts. \$7.50.

A lower rate will be quoted by the thousand packets.

ECKFORD'S NEW WHITE SWEET PEA, "SADIE BURPEE."

First-Class Award of Merit, ROYAL HORTICULTURAL SOCIETY, 1898.

First-Class Award of Merit, HANLEY HORTICULTURAL SOCIETY, 1898.

First-Class Award of Merit, LEICESTER HORTICULTURAL SOCIETY, 1897.

First-Class Award of Merit, CARDIFF HORTICULTURAL SOCIETY, 1897.

First-Class Certificate, EDINBURGH S. H. A., 1897.

In describing this grand, new Sweet Pea it is difficult to convey a just idea of the beauty which it possesses. The extreme daintiness of its shape and pure pearly whiteness is altogether beyond description. It is absolutely the prettiest-shaped flower yet produced. The individual flowers are of splendid substance; the plant is a strong grower, free flowering, and produces its flowers on long, stout stems. The variety is of the fashionable hooded form, and most suitable for buttonhole, bouquet, or other decorative work. Judges have been unanimous in their praise of "SADIE BURPEE," and notwithstanding the beautiful appearance of *Blanche Burpee*, the finest white now in commerce, the FIRST-CLASS AWARD OF THE ROYAL HORTICULTURAL SOCIETY pronounces this THE WHITE SWEET PEA "PAR EXCELLENCE."

"Plant thinly in good ground, cut freely, feed liberally with liquid manure right through the growing season, and I have no hesitation in predicting a four months' continuous bloom from the one sowing."—HENRY ECKFORD.

Sold only in Eckford's original sealed packets.

Each packet contains two smaller packets holding respectively *six black seeds and six white seeds*,—in all, *twelve seeds*.

\$12.50 per 100 pkts.

\$100.00 per 1000 pkts.

Sweet Pea,—Burpee's "EARLIEST OF ALL."

Notwithstanding their dwarf habit and neat, slender foliage, the plants are of vigorous growth and come into bloom **always ten days to two weeks in advance of the Extra Early *Blanche Ferry***, which has been heretofore a week ahead of all other varieties. Growing only two feet in height, the plants do not require the support of brush or trellis. As an illustration of its extremely early-flowering habit, we would state that now (Oct. 15th) we have plants in fine bloom *from seed gathered from our spring planting and sown during the latter part of August*. A constant succession of bloom may be had from June until November by making sowings about one month apart. Its extremely early-flowering habit makes it most satisfactory for the Southern States, as it may be easily had in full bloom before the hot summer weather. The flowers are as large as those of the regular strains of *Blanche Ferry*, and have long, stout stems, making them entirely satisfactory for cutting; they are borne in close clusters of three, all facing one way. The standards are a bright, rich pink, while the wings are nearly pure white.

BURPEE'S "EARLIEST OF ALL" is not only the earliest to bloom in the open ground, but is also the *most desirable for forcing under glass for winter cut-flowers*. The dwarf habit of this variety renders it much more easily grown on the benches, admits of closer planting, and from seed sown during the latter part of August blooms may be cut during the holidays,—while with the taller varieties no blooms could be had before February or March.

\$5.00 per 100 pkts. ; \$12.50 per 100 half-ounces ; \$25.00 per 100-ounce pkts.

FLOWER SEEDS.

ONE-QUARTER pound furnished at pound rates, and one-quarter ounce at ounce rates, where not less than sixty cents per ounce; of the cheaper flower seeds, not less than one-half ounce will be supplied at ounce rates; *not less than one ounce* will be supplied of varieties priced at *15 cts. or less per ounce*. Where the price is given per 100 packets, the variety is sold only in our usual retail packets.

These flower seeds are all of the finest strains of the best varieties, and are sure to give satisfaction. While many are grown by ourselves at FORDHOOK FARMS, or by our private growers in America, all are thoroughly tested both for vitality and purity. Those that are imported are obtained only from the best growers in Europe, whose gardens we have repeatedly inspected. The whole makes a collection unexcelled in uniform excellence of quality and vastly superior to the uncommercial grades commonly sold. It is generally admitted that **we grow a larger area of Flower Seeds, and test all varieties more thoroughly on our own grounds, than do any other American seedsmen.**

There's a Difference!

There is a difference between **BURPEE'S SEEDS** and seeds as usually sold. Experience, the best of teachers (although her terms are sometimes high), has taught thousands of planters to appreciate the difference. The difference is one of quality rather than of price; the highest-priced seeds are not necessarily the best, while the lowest-priced seeds are seldom, if ever, the cheapest.

In order that thousands more may learn, at little expense, just what this difference actually is, we offer

Seven Popular 25-CENT Trial Collections.

WHOLESALE.

We supply dealers these Collections at **fifteen cents each, or \$13.50 per 100.** Country storekeepers will find this an attractive and profitable way of handling seeds.

Five Fine PANSIES Mailed for 25 Cts.

Next to Sweet Peas, PANSIES are the most popular of all flowers grown from seed. For years we have made a **Specialty of Pansies**, and have not only the largest collection but also the choicest seed of each,—the best that Germany, France, and America can produce.

This Collection embraces a full-size packet of the beautiful gigantic New French Pansy, **PRESIDENT CARNOT**, illustrated herewith; a half-size packet of our own novelty, the gigantic **PRESIDENT MCKINLEY**, which is a companion flower, having each petal beautifully blotched on a gold ground instead of on a silver ground,—see illustration on page 115 of **THE FARM ANNUAL**. It contains also a full-size packet each of the delicately beautiful new **COQUETTE DE POISSY**,—the brilliant German **FIRE KING** and an unequalled mixture of the giant-flowered **BURPEE'S DEFIANCE PANSIES**, described on page 140 of **THE FARM ANNUAL**. These five packets contain *more than four hundred seeds* of the choicest Pansies, and purchased separately would cost seventy cents. With each Collection we send the leaflet, written by E. D. DARLINGTON, telling plainly "*How to Raise the Largest and Finest Pansies.*"

Six Showy NASTURTIUMS, More than two ounces of Seed,— Mailed for 25 Cts.

To get their full beauty, Nasturtiums should be planted freely. This Collection gives *more than two ounces of the seed*. It contains one full-size packet each of our beautiful new climbing **SUNLIGHT**, the brightest and largest-flowered Nasturtium; the unique, curiously marked French **TALL CHAMELEON**, and the fascinating small-flowered new **LILIPUT NASTURTIUMS**,—all three illustrated on page 114 of **THE FARM ANNUAL**. It contains also one-half ounce of the beautiful **NEW HYBRIDS OF MADAME GUNTER**,—one-half ounce of our unequalled, gorgeous **NEW TOM THUMB MIXED**, and one-half ounce of **FORDHOOK FAVORITE CLIMBING NASTURTIUMS**, as described on page 136 of **THE FARM ANNUAL**.

With each Collection we send a copy of the leaflet, written by E. D. DARLINGTON, who has been for many years Superintendent of Fordhook Trial Grounds, telling plainly "*How to Grow both Tall and Dwarf Nasturtiums.*"

Burpee's GEM Collection for 1899.

TEN PACKETS CHOICE FLOWER SEEDS FOR 25 CENTS.

LITTLE GEM SWEET ALYSSUM.—The most beautiful, carpet-like variety of the popular ever-blooming, white Sweet Alyssum.

NEW MARGUERITE CENTAUREA.—*See illustration.* Beautiful plants, bearing large, graceful, double flowers of the purest white, exquisitely lacinated and deliciously scented.

GOLDEN WEST ESCHSCHOLTZIA.—*The New "Giant California Poppy."* Large, bright-yellow flowers borne profusely all summer.

DOUBLE GAILLARDIAS.—The showy bright *Picta Lorenziana* type of all colors.

COVENT GARDEN GYPSOPHILA.—A greatly improved strain of the delicately graceful and airy *Baby's Breath*; fine with Sweet Peas.

FORDHOOK FINE MIXED IPOMEAS.—Many large-flowered, showy varieties, including the finest new giant Japanese Morning Glories of *Mikado Strain*, imported direct from Japan.

FORDHOOK LARGE-FLOWERING PHLOX.—The best selected strain of large-flowered varieties, grown by ourselves at FORDHOOK FARMS.

CHAMOIS-ROSE POPPY.—A distinct novelty, bearing large, fluffy, and perfectly double flowers of a clear chamois-rose color; delicately beautiful.

SALVIA SPLENDENS.—The most gorgeous of all Annuals, covered with numerous long spikes of the most intensely brilliant scarlet flowers.

FORDHOOK FAMOUS MAMMOTH VERBENAS.—The largest and finest strain ever originated. These are *truly mammoth* Verbenas of many bright, rich colors.

COPYRIGHTED BY W.A.B. & CO.

TWENTY-FIVE CENTS buys the ten varieties as above, with directions for culture printed on each packet. *Five Complete Collections mailed for One Dollar.*

This idea is original with us, and in the past twenty-three years we have induced thousands to begin the culture of BEAUTIFUL FLOWERS FROM SEED. The offer gives "much for little" but not "something for nothing," as announced in some sensational advertisements. In every case the quality is first-class,—being identically the same as if the seeds were purchased separately at the regular retail prices of five and ten cents per packet.

Seven Superb Vegetables, all of our own introduction, mailed for twenty-five cents.

LONG-KEEPING AUSTRALIAN BROWN ONION, a magnificent new onion of beautiful amber-brown skin and mild, white flesh; extremely early in ripening and keeps in good condition longer than any other. —**FORDHOOK FANCY TOMATO**, the most remarkable novelty in tomatoes ever introduced. —**COLUMBIA BEET**, extra early and finest quality. —**BURPEE'S NETTED GEM MELON**, the variety that has made Colorado famous for its "*Rocky Ford*" Melons. —**CALIFORNIA CREAM-BUTTER LETTUCE**, splendid large, buttery heads in summer. —**EARLIEST WHITE RADISH**, crisp, snow-white little radishes in only sixteen days. —**FORDHOOK PICKLING CUCUMBER**, the best for pickling and fine also for slicing; very prolific

For 25 Cts. we mail all Seven Packets, each full size, with illustration and directions for culture printed on each.

Please Examine Our Unequaled Record

on pages 6 and 7 of THE FARM ANNUAL. The seven packets in this Collection will prove not only that **Burpee's Seeds are the Best that Grow**, but also that varieties of our own introduction are the best.

WHOLESALE.

We supply dealers these Collections at fifteen cents each, or \$13.50 per 100. Country storekeepers will find this an attractive and profitable way of handling seeds.

Seven New Sweet Peas for 25 Cts.

Our Grand Collection of Seven Superb New Sweet Peas for twenty-five cents is a special feature of our business each year, but never before has the collection contained seeds of such value as this year. All are regular-size packets, containing from forty to seventy seeds each, except *Prince of Wales* and *Black Knight*, of which there are twenty seeds. It is an actual fact that last year it would have cost exactly two dollars and eighty-five cents to procure the seed contained in these Seven Packets sold now for 25 cents. Extravagant as this statement may appear, it can be verified easily by comparing with the prices in BURPEE'S FARM ANNUAL last year, where it will be seen that three of these "advance novelties" sold at 25 cents per packet of ten seeds, and three others at 15 cents for thirty seeds.

For 25 Cts. we mail one packet each of LADY NINA BALFOUR, Eckford's new light mauve; PRINCE OF WALES, largest flowers of most beautiful deep-rose color; BLACK KNIGHT, darkest of all Sweet Peas, nearly black; ORIENTAL, most gorgeous orange-salmon; MODESTY, silvery white, suffused with delicate flesh color; SALOPIAN, most brilliant scarlet; and BURPEE'S BEST, an absolutely unequalled mixture of all the choicest novelties. See beautiful colored plate in catalogue.

With each collection we inclose a copy of our new leaflet, telling how we grow Sweet Peas on our famous FORDHOOK FARMS, well known as the Largest Trial Grounds in America.

Five of the Finest Artistic ASTERS for 25 Cts.

As explained in THE FARM ANNUAL, this Collection was suggested by one of our customers. Besides a large packet of the mixed FORDHOOK FAVORITES AMONG ASTERS it contains a regular-size packet of the best MIXED COMETS,—the beautiful NEW WHITE BRANCHING,—the richly-colored NEW GIANT BRANCHING COMET ASTER, "VICTORY," as described in THE FARM ANNUAL FOR 1899,—and fifty seeds of a very showy NEW AMERICAN ASTER that we expect to introduce in 1900. If these could be purchased separately (and one is not for sale outside of this Collection), the five packets would cost sixty cents.

With each Collection we send printed instructions for the successful growth of Asters, which will enable all to grow these favorite flowers to perfection.

Five SUNFLOWERS for 25 Cts.

Gorgeous New Double and Graceful Single Varieties.

Only a Sunflower! How many will turn from this Collection,—we think we shall sell less than of any other. And yet we doubt if of all Seven Collections any will give more satisfaction and surprise at the showy beauty of these improved varieties to those who take our recommendation and plant these Sunflowers. Besides the MULTIFLORA, or MANY-FLOWERED DOUBLE, this Collection contains a full-size packet each of the curious GOLDEN NIGER,—the graceful STELLA or "STAR,"—the globe-like CHRYSANTHEMUM-FLOWERED, and the stately GERMAN GOLD,—all Novelties of decided merit, as described from nature on page 117 of THE FARM ANNUAL.

The very fact that we devote an entire page of our Novelty List to describing NEW SUNFLOWERS shows that we realize the remarkable beauty of these new types and want our customers also to enjoy their brilliant beauty.

We supply dealers these Collections at fifteen cents each, or \$13.50 per 100. Country storekeepers will find this an attractive and profitable way of handling seeds.

Burpee's New Box of Flower Seeds.

THIS box of **CHOICE FLOWER SEEDS**, put up in a neat and attractive style, with **illustration and directions for culture** printed on each packet, contains the same **fine quality of fresh seed** as supplied to our own critical retail trade. Dealers, having had frequent complaints from the flower seeds usually sold, will now find this a pleasing and profitable department of their business. The selection embraces the most popular and quick-selling varieties.

EACH BOX CONTAINS

Five 5-cent Packets each of

ALYSSUM, SWEET.
ASTER, CHOICE MIXED VARIETIES.
BALSAM, CAMELLIA-FLOWERED, MIXED.
CANDYTUFT, FINE MIXED.
CALLIOPSIS, MIXED COLORS.

ALSO Five 10-cent Packets each of

ASTER, SEMPLE'S BRANCHING, MIXED.
BEGONIA VERNON.
CARNATION MARGUERITE.
POPPY GOLDEN GATE.
SALVIA SPLENDENS.

In all, 175 Packets of Flower Seeds.

30 varieties, five packets of each, making a total of 150 packets, at 5 cts., \$7.50
5 varieties, five packets of each, in all 25 packets, at 10 cts., 2.50

Total Retail Value, \$10 00

Wholesale Price to the Trade, \$4.00 for the Box complete.

It can be sent by mail for 15 cts. additional.

Additional Packets of the above varieties, to replenish stocks as they are sold, will be forwarded promptly by mail, in lots of five packets of a variety, at 2 cts. each for the 5-cent packets, and 4 cts. each for the 10-cent packets.

We do not commission Seeds, but offer such facilities and increased profits that dealers will find our plan more satisfactory to themselves and their customers.

W. ATLEE BURPEE & CO., PHILADELPHIA, PA.

Burpee's Seeds are Uniformly HIGH GRADE

In the way they are grown;

In the way they are put up;

In the way they are sold.

While we conduct our business economically in every department and are able to supply the best seeds that grow at moderate prices, there is nothing "cheap" about BURPEE'S SEEDS. We think it worth a page of this Catalogue to explain how

BURPEE'S SEEDS are Uniformly of the Highest Grade.

In the way they are grown. We buy practically no seeds in the open market. All are produced subject to our personal inspection during growth, both on our own farms and with our contract growers in different sections of America and Europe. We are careful not only in the selection of stock seed, but also in the actual roguing of the general crops. We seek always not the cheapest, but the best sources of supply. Each variety is raised in that section which long experience with unequalled facilities for comparative tests at our famous Trial Grounds has shown to be best adapted to its perfect development. For instance, early strains of Canliflower, such as *Burpee's Best Early*, *Snowball*, and *Extra Early Dwarf Erfurt*, are grown for us in Denmark, although we could obtain for half the money seed of the same varieties grown either in California, France, or Italy.

In the way they are put up. Having the confidence of Seedsmen throughout the world, we receive many wholesale orders from other leading houses, both in America and Europe. There are in America, however, many local merchants who handle seeds as a side issue, and it was brought to our notice that some merchants were using our show cards and catalogues to sell seeds bought from other growers very cheaply, and necessarily of inferior quality. Therefore, we were compelled, for the mutual protection of our customers and ourselves, to adopt a year ago the plan of selling **only in sealed packages**. This does not interfere with fellow-seedsmen purchasing any quantity they desire in bulk, but each bag when it leaves our warehouse is sealed, and the market gardener and private planter who orders from his local merchant should insist upon having exactly the quantity he wants ordered from us and delivered under seal. All linen and seamless bags are sealed with our trade mark on a leaden seal. Quarter-pounds, pints, and quarts done up in paper bags have our trade mark on a green label pasted across the top. All ounces have printed at the top of

the bag "BEST SEEDS THAT GROW FOR 1899," while both packets and ounces are done up in the best quality of the *Spangler water-tight bags*, neatly printed in black ink, which to our taste is preferable to the gaudy lithographed bags so commonly used with the one idea that "the pictures sell the seeds."

In the way they are sold. We have explained in the preceding paragraph how they are sold to dealers. As a consequence of the fact that our seeds cost so much more to produce than the commercial grades usually handled, and that we employ no traveling salesmen to compete with the "cut-throat" prices so generally offered by houses who make quality only a secondary consideration, BURPEE'S SEEDS are on sale in comparatively few towns. Dealers who appreciate quality will find, however, that the difference between our wholesale and retail prices allows a **good margin of profit**, and by ordering carefully there need be none left over.

BURPEE'S SEEDS are never sold at department stores, nor are they offered by papers as premiums. We decline positively all such orders, as both of these classes of wholesale customers require a cheap grade of seeds to which they can attach a fictitious value.

BURPEE'S NEW WAREHOUSE.

The new warehouse of W. Atlee Burpee & Co., a front view of which is given in the illustration, is seven stories high, of modern steel, open-mill construction, with frontage on both Fifth Street and York Avenue, Philadelphia, Pa., of light pressed brick and terra-cotta.

The offices occupy the entire frontage on the ground floor on the Fifth Street side, while the receiving and shipping of goods is handled on the York Avenue side, where are located the elevator shaft and the shipping clerk's office. A subcellar extends under the York Avenue pavement in which is located the boiler; by this means the main cellar is kept perfectly cool, and available for the storage of potatoes, bulbs, and such goods.

The second floor is devoted to the flower-seed and mail-order departments. The third floor contains the seed-papery and steam-printing rooms, besides extensive shelving for the storage of seeds done up in packages. The fourth floor is given up entirely to the freight and express and wholesale order departments. The fifth, sixth, and seventh floors are used for storage of seeds in bulk.

A visit to this new warehouse is an education in itself, in the matter of demonstrating how an extensive business can be conducted on the highest systematic basis. The utmost system prevails here, from the entering of the orders until the time the goods are dispatched by mail, freight, or otherwise. Every variety of seed catalogued has its bin or shelf in the various departments, and the alphabetical arrangement of the compartments renders comparatively light the work of filling the enormous number of orders received. Seeds are put up, according to necessity, in pints, quarts, or ounces, and stored in these shelves to await the rush. By an excellent system of book-keeping the firm can tell at a glance and at any moment just how the quantities of the various stocks handled stand. Telephone communication extends to every floor, each one of which is thus connected with the other; in fact, the whole interior arrangement gives one the impression that everything has been provided that can in any way facilitate dispatch. A bag-filling machine is kept constantly at work, in addition to the large force of girls, who fill, close, and seal the packets of seeds, which guarantee to the recipient thereof that the stock within the packet is Burpee's seed.

Mr. Burpee has a private office on the ground floor; and an interesting feature here is the colored and other catalogue cover designs, together with the colored plates that have been distributed by the firm ever since they introduced that kind of work for catalogue purposes. These plates are all in frames, and are both ornamental and instructive.—From THE FLORISTS' EXCHANGE, New York, November 12, 1898.

BURPEE'S SEEDS are sold in any quantity, but only under seal. They are always Genuine as dated,—if seal is unbroken.

YORK AVENUE FRONTAGE OF
BURPEE'S OLD WAREHOUSE.
Torn down in May, 1898.

Service Now Better than Ever.

The prompt and careful execution of orders has been always a feature of our business. With our New Warehouse,—largest in Philadelphia and most modern in America,—we are prepared to serve the trade better than ever before. Our “reserve stocks” are carried, as heretofore, in the large warehouse and barns on FORDHOOK FARMS, but all shipments are made f. o. b. cars in Philadelphia.

W. ATLEE BURPEE BUILDING.

“The new W. Atlee Burpee Building is an imposing structure on the east side of Fifth Street, with a towering front of buff pressed brick. . . . The building is to be a big seed warehouse.”—From THE EVENING TELEGRAPH, Philadelphia, Thursday, August 18, 1898.

The Old and The New.

We show herewith illustrations, engraved from photographs, of the old Philadelphia Warehouse, occupied by us for the past sixteen years, which was torn down in May, 1898, and of the New Seven-story Warehouse, erected upon the same site. In this magnificent new building, owned and occupied exclusively by us, we are now located permanently, having moved back to the “new old stand” in October, 1898.

YORK AVENUE FRONTAGE OF
BURPEE'S NEW WAREHOUSE.

Engraved from a Photograph taken on September 10, 1898.
